Visual Workplace • Visual Thinking Seminar

In the morning, Dr. Gwendolyn Galsworth, leading authority on *Workplace Visibility*, discusses her unique visual conversion approach. Learn principles, concepts, models, methods, and tools that not only show you what a visual workplace is and why it's so important—but also explain the keys to a sustainable implementation through people.

In the afternoon, learn about the *Ten Doorways* into a comprehensive Visual Workplace and the *Five Reasons* why workplace visibility is indispensable to your journey to excellence.

See and understand over 100 actual visual solutions, invented by employees who have learned how to *Think Visually*. Get ready to learn more, improve more, implement better, and sustain the gains.

Galsworth is the world's foremost authority on visual management. She raises the stature of visibility, hardens soft notions about it, and embeds it in structure and theory.

Richard J. Schonberger, Ph.D., author of *World Class Manufacturing and Let's Fix It!*

"I have attended many seminars on Lean manufacturing and have chosen Visibility as the path for our company. This seminar gave us the missing link for our focused factories and work cells." B. P., Goshen Rubber
