RYG LED Traffic Lights

Traffic lights are a great way to support safety programs and keep your employees aware of the facility safety status in an efficient and obvious way. Perfect for industrial or commercial applications.

High Power (HP) LED traffic lights are available with wireless control using either a keyfob or a Bluetooth phone app controller to quickly and easily engage traffic signals. Systems include universal L-shaped mounting brackets and cutaway visors. At less than 18-lbs, these signals can be mounted horizontal or vertical to suit your needs. Choose from black or yellow housings.

Wireless control system to engage traffic signals with a range of over 300-ft

| RYG LED Traffic Signal with Bluetooth Phone App Controller | 66-3631-3310-(+color code) |
| Additional Key Fob Controllers | 66-3630-3310-FOB |

Traffic Light Color Options:

618 Yellow 603 Black

Keyfob Controller

Control the LED Traffic Light with a keyfob remote that offers four easy-to-use modes of operations. Effective up to 300". Additional remotes are available.

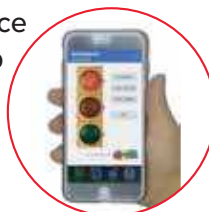

Keyfob remote control option

Bluetooth Phone App control option for Android or iPhone

RYG LED Traffic Lights

Control the LED Traffic Light with any smart phone or tablet through a simple user interface that is available as a FREE downloadable app (Android and Apple). The Bluetooth signal range is effective between 100' to 300' depending on the Bluetooth signal from your device. With full signal change feedback response included in the standard app, line of sight of the signal is not required for reliable operation.
