 Add the
 VnM®4 Label Printer

How do you get the signs you need?

Handmade

Printer / Laminator

Label Maker

Visual Sign Pro

Making signs is easy...anyone can do it!

How to Make a Sign...

Step 1 DESIGN

DESIGN signs using Visual Sign Pro software included with every system. Create a design from scratch or choose from hundreds of templates online.

Step 2 CUT

Use the plotter to CUT the design. Remove from plotter.

Step 3 WEED

WEED (or pull away) excess vinyl. Then, remove additional unneeded pieces within letters and graphics.

Step 4 APPLY

APPLY Application Tape over the weeded sign. Squeegee to remove air and transfer vinyl to signboard.

SIGN IS COMPLETE!

Remove the Application Tape and your sign is complete.

Apply signs to a variety of smooth surfaces; indoor and outdoor.
