Sustainability

Distribution & Warehousing

Organization is the key to efficiency in any Distribution Center. Lean manufacturing and 5S principles of having a place for everything and everything in its place are what drive productivity and efficiency. Visual Management provides quick reference to location of goods that prevent searching and promotes a safe, streamlined workday.

Common organization visuals every facility will need include identification signs letting you know what type of inventory each aisle contains and labels for inventory shelving to help you find what you need to pick an order. However, Distribution Centers and Warehouse environments can be extremely fast paced and safety needs to be of the utmost importance. Stop Signs that are

Visual Communications for Distribution & Warehousing

displayed with traditional signage, floor decals or a more modern digital display can prevent collisions that could cause serious injury, or even death, are integral for keeping employees safe.

Visual Overlays and Communication Boards are efficient ways to visually indicate priority messages for out of stock items, urgent orders and who is in charge for any inquiries or shipping issues. Shadow-Mark for tools shadows will ensure that the tools you need will be where they belong and enforce asset accountability. Floor-Mark floor decals will help with traffic flow with floor decals and visually set clearance for aisle floors using Floor-Mark floor tape to make sure there are no hazards impeding forklift traffic.

Visual Workplace has all the Visual Communication tools to *Visualize* your goals, *Improve* your processes and *Sustain* a Lean work environment.
