Floor-Mark[®]

Safety Floor Marking Tape

Durability, Performance and Value

Marking floors is one of the fastest and easiest ways to direct behavior and create visual communication in a work environment. Create SMART FLOORS with floor marking tape to communicate expectations and reinforce standards in the workplace.

No single floor-tape fits all applications. Visual Workplace provides three options at different price points for cost effective solutions based upon the types of traffic in the workplace. Floor-Mark[®] uses a pressure sensitive adhesive for easy installation.

Select the right tape for each application at the right price.

Performance Options

- > **High Performance** - High traffic, aisles and forklift areas, high-tac adhesive
- > **Industrial** - Medium traffic, identify workplace, tools and equipment
- > **Economy** - Low traffic, 5S locations and color coding
