Visual Workplace is a leading provider of innovative visual communications that deliver a platform of continuous improvement and drive sustainability across all industries.

Visual Communication is Key for a Construction Zone

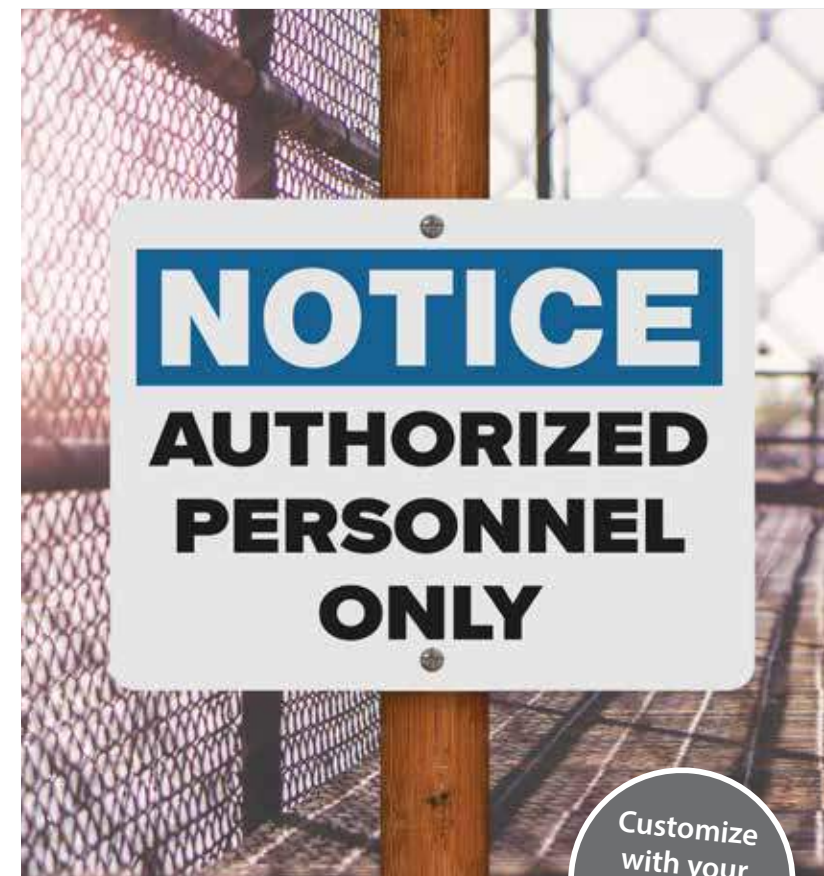

Visual Workplace supports the construction industry by providing visual management products to improve and sustain a safe, efficient work environment.

As a construction superintendent, project manager, or safety manager, meeting or exceeding quality standards on time and within budget is key. Organization and Safety are two major components to maintaining deadlines and creating the kind of safe work environment required for employees. Visual Communication tools are essential for operating efficiently, organizing supplies and keeping employees informed of dangers that may surround them at any turn.

Road crews and building sites face many dangers with large equipment traffic, cars passing very near to where they are working and using heavy-duty

tools. PPE required signs can be displayed for both workers and visitors who may be inspecting codes or delivering supplies to keep the job moving. To avoid accidents, decals can be used to display equipment certifications on hard hats to ensure the person using the equipment has been trained as an operator.

A-Frame signs can be used to direct traffic to areas that are safe from hazards. In construction, time is money. Lost time accidents, equipment failure and disorganization need to be avoided to keep the job on schedule. Visual Communication is a key component to reducing the time draining costs.

Sign Materials

Choose from a large selection of materials to meet specific needs.

Dry Erase Board Overlays – Magnetic and Non-Magnetic

- Magnetic or Non-Magnetic
- Printed on a thin, durable acrylic sheet with a frame that attaches to a dry erase board
- Graphics printed on back to eliminate fading

Self-Adhesive Vinyl Decal

- Peel and stick backing, flexible vinyl film (curved or flat surfaces)
- Outdoor durability: 2 to 4 years
- Apply to clean, dry, smooth surfaces

Plastic

- Lightweight, yet rigid and durable
- Rounded corners
- Indoor use

Aluminum

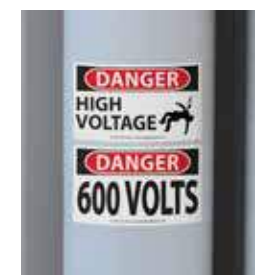

- Rounded corners
- Rust resistant
- Outdoor durability: 5 to 7 years

Banner/Fence Banner

- Outdoor use, durable, hemmed with grommets
- Various sizes available

Reflective Aluminum

- Engineer grade sheeting
- Standard .118-gauge aluminum composite
- Standard mounting holes and corner radiuses
- Meets DOT and MUTCD guidelines
- 10-year outdoor durability

CONSTRUCTION PROJECT MANAGEMENT

Project Management Done Right!

Visual Workplace has many designs to choose from or will customize a design at no additional cost. Simply contact us, and the design team at Visual Workplace will create a design to meet specific needs.

Hasps

Ideal Solution for LOTO Equipment Requiring Multiple Workers

Hasps are an easy and effective way to lock out main power switches and energy sources to avoid accidentally restarting machines during maintenance or service.

For example, if different work steps need to be carried out by different workers on the same machine, each can lock out the machine with their respective padlock (sold separately). Only when maintenance is fully complete, the final worker takes off their padlock and releases the main switch.

Available in:

- Steel / Steel (Interlocking Style)
- Aluminum
- Plastic

More options available online!

DESCRIPTION	ITEM #

Plastic Hasp, 1"	57-2512-5515-628

Padlocks, Devices, Security Seals & Storage

Comply with OSHA Regulations and Keep Employees Safe by Making Equipment Inoperable. LOCK IT OUT!

Controlling hazardous energy with a Lockout/Tagout (LOTO) system is an important component of maintaining a safe work environment and protects employees from injury or death that could occur if equipment isn't safely turned off. Energy used to power mechanical, hydraulic, thermal, electrical, pneumatic, water and other systems needs to be locked out to stop the release of hazardous energy when performing equipment repairs and maintenance.

Visual Workplace offers padlocks, lockout devices, tags, labels, hasps and other devices to support any LOTO system to maintain a safe work environment.

- Benefits:**
- OSHA compliant
 - Clearly communicates risk in the workplace
 - Provides safety while performing maintenance
 - Prevention of injuries, damage and errors

Cable Lockouts

Cable lockout devices are universally applicable, especially in cases where longer distances between two lockout points have to be bridged. These flexible cables are available in different lengths and simply wrap around lockout spots and are tightened with the lockout device.

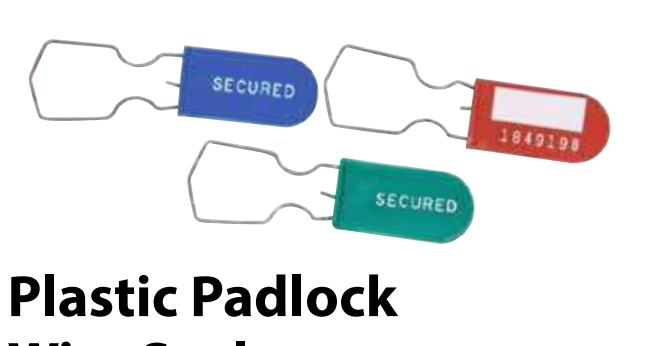

- Bridge two lockout points
- Patented grip mechanism to secure the cable
- Retighten at any time, even when locked
- Flexible metal cable in 3", 6", 9", 15" lengths

Standard Cable Lockout

- Holds up to 6 padlocks

DESCRIPTION	ITEM #
Cable Lockout, Standard, 3-ft Cable	57-2574-5025-SD03

Padlocks

Protection for Any Lockout Application

Aluminum Padlocks

- Lightweight, anodized aluminum lock body is non-magnetic and available in a variety of vibrant colors
- 0.25" shackle diameter; stainless steel
- 1" and 3" shackle heights
- NANO PROTECT™ coated steel shackle and lock body for superior corrosion/chemical resistance
- Key can only be removed when properly locked
- Precision 5-pin cylinder; 2 keys included per lock
- OSHA LOTO compliant

*Pictured: Aluminum 1" and 3".
Also available: Aluminum Cable, Plastic-Covered Brass, and Plastic Covered Aluminum + choice of color.

57-2540-1409-623

Lockout Kits

Everything You Need in a Convenient, Portable Kit

More kits available online!

Portable kits include a variety of lockout devices for safely shutting down equipment before doing maintenance and repair work. All kits comply with OSHA safety requirements.

Standard Lockout Kit

- 2 – Insulated Red 1.5" Shackle Padlocks
- 1 – 1.5" Steel Hasp
- 1 – 1" Steel Hasp
- 1 – Single Pole Circuit Breaker Lockout
- 1 – 1"-2.5" Gate Valve Lockout
- 1 – 2.5"-5" Gate Valve Lockout
- 10 – Lockout Tags
- 1 – Nylon Storage Pouch

DESCRIPTION	ITEM #
Standard Lockout Kit	57-2531

PolyTags

Essential Communication for Compliance and Safety

Tags go hand-in-hand with a Lockout/Tagout system. Prominently display OSHA required safety hazard detail on equipment or tools until the hazard has been resolved (OSHA 29 CFR 1910.145). Tags are suited for temporary, critical messaging.

- 6.25" x 3"
- Durable, flexible, tear-resistant PolyVinyl
- Single-sided or double-sided
- OSHA compliant
- Sold in packs of 50
- Customize at no additional cost

PolyTags - Pack of 50 Single/Double Sided

SIZE	ITEM #
6.25" x 3"	55-4010-6253-(+style code)

PolyLabels

PolyLabels communicate the message in a unique way by adding color, and symbols reinforce standards. Create consistency throughout the facility with standard messaging that drives compliance. PolyLabels keep team members informed and eliminate questions - resulting in a safer workplace, increased productivity and efficiency.

- Adhesive-backed
- Tear Resistant
- Flexible material for easy application to curved surfaces
- Do not wrinkle or shrink
- Resist moisture

Customize Labels for Free!

Customize instead of settling for standard messaging! The design team at Visual Workplace will create a process specific custom message.

Applications

- Equipment Identification
- Safety Awareness
- Personal Protection
- OSHA Standards
- Inventory Control
- First Aid
- Hazardous Waste
- Confined Space
- And More!

Site Hazard / Construction Site PPE

Reduce Risk at Work

Even where safe work systems are implemented, hazards that cause injury and illness remain. Create custom personal protection signs that provide instructions and procedures to be sure workers know exactly what PPE is required to minimize risk.

Magnetic Dry Erase Board | 10 Pack of Magnets

Safety Banners

Reinforce the message in a bold way with eye-catching banners! Banners are available in horizontal or vertical format and can be customized at no extra cost. Visit our website for additional banner designs.

Material Features

- Heavy-duty 13 oz. woven vinyl and nylon banner material. Other weights and colors available upon request.
- Fade resistant digital graphics
- Include metal grommets for easy hanging
- Indoor/outdoor use

Banners

36" x 96"	60-45-3696-(+style code)

Fence Banners

Fence Banners are suitable for situations where a banner will be subjected to windy conditions. Since the material is more lightweight, mesh is a viable alternative to vinyl to counteract the “sail” effect in these conditions.

Fence banners are the preferred choice in windy areas to hide scaffolding on a construction job.

Specifications

Fence Banners are custom printed at 600dpi on one side of 12-oz. mesh vinyl material. UV inks provide bright, vivid colors that last outdoors. In addition, grommets are included in all four corners and every 2-3 feet on all four sides. Each side has heat-welded hems for durability.

Custom Oversized Transportation Banners

Identify Oversized Loads & Safety Concerns

- Heavy duty 18oz banner
- Double-sided with two messages for versatility
- Communicate oversized, long and wide loads
- UV resistant to prevent fading
- Durable for outdoor use
- Grommets for mounting
- Many sizes available

Object Markers

Clearly Identify Physical Objects with Reflective Markers

Mark obstructions near the roadway. These obstructions could be physical objects such as guard rails, utility poles, bridge abutments, underpass piers, etc. Choose from 2 main sizes.

- Engineer Grade (EG) Thickness: 0.118"
- Consist of two aluminum sheets laminated to a black polyethylene core
- UV resistant to prevent fading
- Resist corrosion, flexing, impacts
- Mounting holes for post mounts
- Service Temperature: -40°F to 176°F

Sign Posts & Bases

Maintenance-free system!
No demanding paint jobs and repairs.

Sign posts and bases are cost-effective, heavy-duty designs that are maintenance-free and do not require painting and repairs.

- Quick and easy installation
- Aluminum sign post bracket assembly (sold separately) allows for 2 signs to be mounted back-to-back
- Bright colors increase visibility
- Withstand the elements and 75 mph winds when filled properly
- Base material: HDPE / Post material: Steel
- Sign bases weigh 30 lbs. with pole when empty and 175-250 lbs. when filled with concrete, sand, or water
- Sign posts are sleeved in matching HDPE post covers
- Made in the USA

Sign Base and Post Options

- Sign base dimensions: 22"x22"x22"

Customized Vehicle Graphics

Custom Vehicle Vinyl Decal

- .045" poly-vinyl with Dupont UV laminate
- Permanent, acrylic adhesive with peel-off backing
- Apply to smooth, curved, and irregular surfaces
- Service temperature range: -40° to 225°F
- Resistance to UV exposure, color fade, abrasions and graffiti

Custom Magnetic Vehicle Signs

- Magnetic vehicle signs are powerful, durable and safe. The flexible magnet material is engineered for maximum versatility and reliability.
- .030" engineered magnetic sheeting with UV protection by Dupont
 - Full color graphic protection
 - Apply to metal surfaces on vehicles, equipment and storage cabinets
 - Flexible sheeting for curved surfaces
 - Repositionable

Custom Glass Graphics with WindowMark

- Promote a company logo on vehicle glass and site trailers. Ideal for blocking sun or bright lights in work areas.
- Thickness: 6.0 mil
 - Perforated white/black flexible vinyl
 - 70/30 vinyl perforation pattern yields 70% material for viewing of the image
 - Clear, removable adhesive that does not leave a residue
 - Installs easily on clean, smooth and dry glass surfaces
 - Minimum application temperature is 60°F
 - Graphics are long lasting and fade resistant
