Cost Savings Solutions

Sustainability

Customized Foam Tool Insert

Foam tool organizers to quickly identify missing tools at glance. Can be placed in drawers or on racks to organize tools at the point of use.

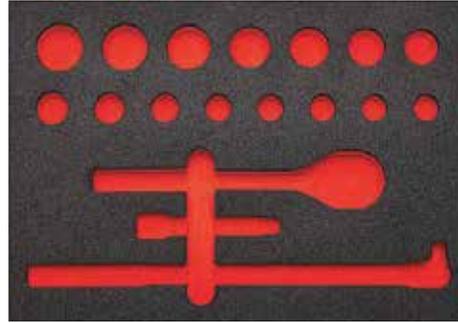

Let your team create their own foam tool organizers. Eliminate time spent searching for missing tools. Reduce tool replacement costs and increase workplace organization.

You should be able to reach for a tool - knowing where it will be with just a glance.

You should be able to reach for a tool - knowing where it will be with just a glance.

- > Bright, contrasting colors show what's missing in a glance
- > Pressure Sensitive Adhesive (PSA) provides secure placement to contrasting ¼" foam
- > A great way to 5S your toolbox (Sort, Set In Order, Shine, Standardize, Sustain).

Foam Tool Inserts

Tool Shadows create efficiency through tool control. Your processes need less human effort, space and time to make products at far less costs with fewer defects. They also provide asset accountability for each represented item. All of these advantages will enable you to sort, straighten, shine, standardize and sustain for a well maintained 5S work environment.

- Thickness: 0.618"
- Color options: Black/Red, Black/Blue, Black/Green or Black/Yellow
- Ensures FOD free work environment
- Design your own custom tool cases
- CNC precision cuts

Lean / 5S

Shadow Boards create processes that need less human effort, less space, and less time to make products at far less costs and with fewer defects, and enable 5S work environments to sort, straighten, shine, standardize and sustain what is needed.

FOD

Two color Shadow Boards enable fast recognition of foreign object debris by helping to quickly identify missing tools. Our unique board design ensures a FOD free work environment which greatly improves productivity.

Mechanics

Every mechanic has a unique tool drawer. Our CAD/CAM design to manufacturing process allows us to make every Shadow Board to your specific requirement without increasing the cost.

Cases

Design your own foam inlay for your unique case with our Black Shadow CAD software. We have built a library containing thousands of case designs and guarantee a professional fit into your case.

Kitting

Our process for Designing and Milling custom foam for Kitting is a faster and lower cost solution than many other materials. Our solution can be totally customized quickly and easily to each unique application.

Let us help you with your project today!

Our goal is to make your experience extraordinary. Our mission is provide you with the highest quality products, services and expertise that will keep you coming back!

Visualize. Improve. Sustain.
