

Visualize. Improve. Sustain.

A full-page background image of a warehouse. A male worker wearing an orange hard hat, a black t-shirt, and grey overalls is walking towards the right. He is holding the handle of a red pallet jack that is carrying a large cardboard box. The warehouse has high ceilings and is filled with tall stacks of cardboard boxes on metal shelving units.

5S Workplace Organization

Signage • Banners • Decals • And More!

Visual Communication is Key for Workplace Safety

Visual Workplace supports various industries by providing visual management products to improve and sustain a safe, efficient work environment.

5S is a system for organizing spaces so work can be performed efficiently, effectively and safely. This system focuses on putting everything where it belongs and keeping the workplace clean, thus making it easier for people to do their jobs without wasting time or risking injury.

Utilizing 5S practices and implementing Visual Management is the key to sustaining a Lean environment. By utilizing signage and visual controls, you can communicate standards and drive improvement through problem-solving.

An effective way to identify workplace hazards is for knowledgeable and experienced workers to conduct routine safety and health inspections. The only way to know if potential hazards exist and if they are under control is to assess work processes directly. VWP can help identify these areas and provide the resources to make the workplace safe and in compliance with 5S standards.

Call (877)523-4088 to speak with a VWP employee today or visit www.visualworkplaceinc.com to learn more!

Sign Materials

Choose from a large selection of materials to meet specific needs.

Dry Erase Board Overlays – Magnetic and Non-Magnetic

- Magnetic or non-magnetic
- Printed on a thin, durable acrylic sheet with a frame that attaches to a dry erase board
- Graphics printed on back to eliminate fading

Self-Adhesive Vinyl Decal

- Peel and stick backing, flexible vinyl film (curved or flat surfaces)
- Outdoor durability: 2 to 4 years
- Apply to clean, dry, smooth surfaces

Plastic

- Lightweight, yet rigid and durable
- Rounded corners
- Indoor use

Aluminum

- Rounded corners
- Rust resistant
- Outdoor durability: 5 to 7 years

Banner/Fence Banner

- Outdoor use, durable, hemmed with grommets
- Various sizes available

Reflective Aluminum

- Engineer grade sheeting
- Standard .118-gauge aluminum composite
- Standard mounting holes and corner radiuses
- Meets DOT and MUTCD guidelines
- 10-year outdoor durability

Visual Management Fundamentals

Uncover hidden waste by establishing Visual Management as the core foundation of problem solving. To successfully implement Visual Management, learn and understand the seven pillars that build a platform for successful implementation and execution. These Visual Management principles bring discipline to the problem-solving process as well as instill a culture of employee engagement.

Download the Visual Management Form!

Achievements of Visual Management

Leadership

- Define standard work for leaders
- Utilize problem-solving tools
- Establish reward and recognition programs that build engagement

Workplace

- Create organization and cleanliness
- Promote identity and product solutions
- Construct a culture of organization and discipline

Work Instructions

- Decrease process variability
- Create repeatable and effective new employee onboarding
- Reduce injuries and strain
- Establish a baseline for improvement activities

Scoreboards

- Ensure that process performance is meeting expected targets
- Easily identify abnormalities and deviations and respond in a timely manner
- Align key performance indicators with business strategies

Process

- Label tools and gauges and assign a designated location
- Track production metrics to actual performance at the point of use
- Clearly display quality standards

Safety

- Reinforce safety standards
- Define personal protective equipment requirements
- Monitor safety performance and identify opportunities for improvement

Inventory

- Communicate inventory requirements
- Clearly identify inventory by single storage locators
- Identify material status by color code

5S & Lean: How to Create a Visual Workplace

5S practices for a safer, cleaner and more productive workplace

5S is a workplace organization method that is derived from a Japanese manufacturing strategy meaning to sort, set in order, shine, standardize and sustain. These words describe how to organize a workspace for efficiency and effectiveness by identifying and storing the items used, maintaining the area and items and sustaining the new order. In some companies, 5S has become 6S, the sixth element being safety. Visual Workplace believes that 6S can help tremendously in the overall process, so adopting Safety First is critical and necessary for a productive work environment.

Scan to learn more about 5S & Lean practices

Steps for Success

SORT Organization: Remove non-essential items from the workplace. When in doubt, throw it out.	SET IN ORDER Orderliness: Visually organize all essential materials to speed up the searching process. Label to assign proper locations.	SHINE Cleanliness: Make it your routine to clean your environment regularly for safety and preventative maintenance.	STANDARDIZE Standardized Clean-up: Create consistent methods to support and maintain Sort, Set and Shine.	SUSTAN Sustaining the Discipline: Create habits in a normal workday that lead to a sustained 5S culture.

Identify 5S & Lean areas within your organization

5S & LEAN TOOLS	DESCRIPTION	APPLICATIONS
Safety Floor-Marking Tape/Floor Decals	Create smart floors to direct behavior and reinforce standards within the workplace.	Walkways, 5S locators, pedestrian routes, fork lifts, floor scrubbers
Banners	Promote and reinforce messages or company policy in a large attention-getting way.	Warehouses, aisle markers, industrial environments, office space, trade shows
Shadow Boards	Create order, quickly identify missing items, sustain workplace organization and maintain a clean workplace	Tool boards, quality inspection processes, KPI Boards, production boards, cleaning stations, break rooms, mail rooms
Dry Erase Board Overlays	Transform dry erase boards with overlays to assist with problem solving and comparing goals to performance.	KPI Boards, Hourly Production Boards, Training Matrices, Communication Boards
Signage	Promote and maintain a safe, organized and productive visual workplace.	5S, Lean and Safety Signs
Labels & Decals	Communicate your message to reinforce standards and keep your team informed, productive and safe.	Pipe Markers, equipment identification, OSHA standards, inventory control, hazardous waste, confined space
Tags	Display OSHA-required safety hazard detail for locked out equipment until the hazard has been resolved.	LOTO, 5S Red Tags, OSHA, inspection/repair, fire safety, chemical, PPE
Virtual Safety Lines	Project virtual safety lines on floors and easily reconfigure when needs may change.	Virtual aisles, walkways, lanes, safety signs and symbols, forklift safety lights

Overlays & Dry Erase Boards

Project Management Done Right!

Improvement necessitates measuring performance against the standard. No more hand-made graphics! Printed dry erase boards and overlays assist the team with problem solving and comparing goals to actual performance.

Visual Workplace has many designs to choose from or will customize a design at no additional cost. Simply contact us, and the design team at Visual Workplace will create a design to meet specific needs.

Material Options

Magnetic Dry Erase Boards

Magnetic, frameless dry erase boards are durable .118" steel composite. Graphics are long lasting.

Non-Magnetic Dry Erase Boards

Non-magnetic, frameless dry erase boards are .118" acrylic, which offers excellent clarity, durability, and can be used as a dry erase surface.

Dry Erase Board Overlays – Magnetic and Non-Magnetic

- Magnetic or non-magnetic
- Printed on a thin, durable acrylic sheet with a frame that attaches to a dry erase board
- Graphics are printed on the backside
